- 100% solar operated
- Activities include game drives, stargazing & nature walks
- Overlooks a permanent watering hole
- We use a guide and tracker system
- All inclusive rates

After the summer rains – the CKGR completely transforms as the blue sky fills with huge clouds, and the plains and pans burst with sweet grasses. This is one of the best game viewing areas in Botswana at this time of year and not many people seem to be aware of this – so the visitors are few.

The CKGR gets animals such as springbok, gemsbok and wildebeest in their thousands and is quite a sight to behold. Predators abound with plentiful lions – especially the famous Kalahari black-maned lion, cheetah, leopard and jackals. Brown hyenas and wild dogs are also found in the area.

Several species of antelopes make the trip to the sweet grasses of the CKGR which include the eland, springbok, steenbok, gemsbok, hartebeest, kudu and duiker. Honey badgers are regular visitors as well as ground squirrels and meerkats and many an hour can be wiled away watching these fascinating animals. A definite inclusion to any Botswana itinerary.

Please note that Tau Pan is in a national park, a very ecologically sensitive area and for this reason no night drives or off road driving is permitted.
